

STATEMENT ON THE PRINCIPAL ADVERSE IMPACTS OF INVESTMENT DECISIONS ON SUSTAINABILITY FACTORS

Transparency about adverse impacts on sustainability factors as referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852.

Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector ("SFDR" or "The Regulation") entered into force on 10 March 2021.

This document specifically addresses Article 4(1)(a) of the Regulation, which requires SNPS to provide information regarding the consideration of the principal adverse impacts of investment decisions on sustainability factors. This statement covers the reference period from 1 January 2023 to 30 June 2023. More information about the SFDR can be found on the website of SNPS.

1. Consideration of the principal adverse impacts

SNPS does not (yet) take into account principal adverse impacts of investment decisions on sustainability factors as referred to in the SFDR. This is because there are currently no official processes in place to identify, prioritise and monitor these impacts. SNPS aims to have processes in place by the first half of 2023 that will allow principal adverse impacts on sustainability factors to be taken into account and measures to be taken in order to mitigate these impacts.
